

# GLOBAL TERRORISM PROJECT

Ana del Río del Barrio & Darío González Sánchez

¿Why have we chosen  
this database and topic ?

The background of the slide features a complex, three-dimensional network of nodes and edges. The nodes are represented as spheres of varying sizes, and the edges are thin, light gray lines connecting them. The network is dense and appears to be a random or semi-random graph. A horizontal gray band is positioned across the middle of the image, serving as a backdrop for the title text.
